

Claude Research Underground

the connectors, MCP servers & skills worth wiring — genomics · medicine · comp-bio · stats · trial design — Claude at the centre

curated to the live + verified set · solid interchange lines = multi-domain MCP servers · outer dashed ring = the discovery / install backbone

the cfDNA river

LINES

- Literature & Evidence
 ● Genomic Data & Sequencing
 ● Compute & Pipelines
 ● Statistics & Trial Design
● Clinical & Regulatory
● Visualization & Figures
● Writing & Publishing
● Orchestration & Lab Ops

INTERCHANGE LINES (multi-domain MCP servers)

- == BioMCP — literature · genomic · trials federation == Open Targets — target · disease · treatment === Discovery ring — Life-Sciences marketplace + BioContextA

KEY — status & trust

- live now — wired in your session
- verified — real & ready to wire
- interchange — a connecting line stops here
